## **DETAILED ACTION**

## Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-56 are rejected under 35 U.S.C. 102(b) as being anticipated by Tucker et al (USPN 4,193,397). Tucker discloses an infusion apparatus that includes a medication reservoir, a carrier reservoir, a mixing chamber, a medication flow path, a carrier flow path, a medication pump system, and an outlet port. The device also includes a bolus port, a medication flow restrictor, and a carrier flow restrictor. These restrictors can be more or less restrictive than one another. The device also includes a power cell.
